

ENHANCE YOUR BUSINESS WITH VIRTUAL REALITY

2012 OPEN HOUSE SERIES

GAIN A NEW PERSPECTIVE ON YOUR MODELS WITH 1:1 LIFE-SIZED SCALING

EXPLORE AND INTERACT WITH YOUR DESIGNS IN AN IMMERSIVE, VIRTUAL 3-D ENVIRONMENT

You and your colleagues are invited to attend a special open house event for the Riverstone Energy Center's Modeling and Simulation Center of Excellence. The Mod-Sim Center features a fully-immersive "CAVE," which renders 3-D environments and models in virtual reality, via state-of-the-art 3-D stereoscopic projection systems, and revolutionary motion-tracking, allowing for interactive, life-sized scaling of your architecture, products, projects, and designs. From the smallest parts to the biggest, all manufacturers will benefit from this revolutionary technology, available to your company locally at the Riverstone Energy Center.

- **VISUALIZE AND SIMULATE** your advanced manufacturing process to ensure fluidity, a streamlined workflow, and cost-effectiveness
- **UTILIZE VIRTUAL RAPID-PROTOTYPING** to review your designs before production, saving time and money
- **BE LIGHT-YEARS AHEAD** of your industry's competition

RSVP now at RiverstoneEnergyCenter.com/OpenHouse
